- Services several types of diesel engines, light towers and pumps.
- Troubleshoots diesel engine and electrical issues.
- Ensures machines are tested, calibrated and run according to manufacturer's specifications.
- Ensures machine appearance reflects current Red-D-Arc standards, including re-painting, washing and installing new decals on machines when necessary.
- Ensures proper service documentation is completed in a timely and accurate fashion.
- Inspects returned equipment for proper operation and /or damage by the customer.
- Operates a forklift, pallet jack or other necessary equipment to stock required parts in the shop.
- Maintains a clean, organized and safe work environment by ensuring all health and safety guidelines are followed.
- Occasionally required to service equipment and customers off-site.
- Communicates with all branch personnel, including Repair and Lead Technicians, Shop Supervisor, Branch Manager, Inside Sales Associate.
- Performs other related duties as required.

Qualifications:

- Post secondary education equivalent to a one year Technical College or equivalent is an asset.
- Three years of related technical experience.
- Working knowledge of positioning equipment, welding application and equipment is an asset.
- Position to be location in Odessa, Texas or Hobbs, New Mexico.

Skills

- Ability to make critical decisions while following company procedures.
- Ability to act proactively or find a solution with work-related problems.
- Ability to effectively build relationships with customers and co-workers.
- Adaptable to set and prioritize work with varying exceptions.
- Ability to work with a wide variety of people with different personalities and backgrounds.
- Communicates with clarity, verbally in one on one or group situations, and over the telephone.
