

# Disaster Remediation

Complete Clean in Less Time = More Profit

## A Faster, Better Clean.

When disaster strikes, the demand for immediate clean-up follows. Whether fire, smoke, water or mold damage, traditional cleaning methods are time consuming and tedious, not to mention ineffective for complete removal. Dry ice blasting is up to three times faster than traditional methods and provides a more thorough clean, even in tight angles of trusses and around nails and wiring. In addition, dry ice blasting achieves 99% mold spore removal from wood.

### APPLICATIONS

- Fire and Smoke Restoration
- Mold Remediation
- Odor Elimination
- Water Damage

### KEY BENEFITS

- Reduce cleaning time
- Reduce labor requirements
- No secondary waste
- Chemical-free process
- 99% mold spore removal on wood when IAQA standards followed
- Remove odor from fire damage
- Environmentally responsible

### REFERENCES

*“Cold Jet’s equipment is bar none the best cleaning quality we can achieve. Coatings and deodorizers are used at a minimum because it eliminates 100% of the charred wood, of the carbon which houses the smell.”*

Water Blasting			• *	•
Hand Tools	•		•	
Solvents/Chemicals				•

\* Upon contact, traditional blasting materials become contaminated when used to clean hazardous substances and objects. These blasting materials are then classified as toxic waste and require appropriate safe disposal.

We now offer Cold Jet dry ice blasting equipment on a rental, lease, try-before-you-buy, and rent-to-own basis throughout the continental United States. Cold Jet is the global industry leader in dry ice blasting and we are pleased to be their exclusive rental partner in the U.S. market. Cold Jet's dry ice blasting equipment can be used for a wide range of cleaning and product finishing processes across a wide range of industry applications. Call us at 1-866-733-3272 for more information about Cold Jet dry ice cleaning technology.
