

Facility Maintenance

Reduce cleaning time and production line disruptions

A Faster, Better Clean.

Dirt, soot, grease, and oil build up in production facilities causes machinery to function improperly and can create an unsafe working environment. Effective cleaning extends the life of electric motors, reducing or eliminating costly repair, replacement or rental programs. However, manual cleaning is often delayed to prevent shut down of production lines. Dry ice blasting provides a quick, safe and economical cleaning solution that allows equipment to be cleaned in-place without disassembly or cool down.

APPLICATIONS

- Forklifts
- Pipes and Hoses
- Motors / Electrical Boxes
- Conveyors
- Cooling Fans
- General Equipment & Facility

KEY BENEFITS

- Reduce cleaning downtime
- Environmentally responsible
- No secondary waste
- Eliminate wear and tear
- Non-abrasive process
- Clean in-place; no cool down required
- Enhances Total Productive Maintenance (TPM) programs

Before

After

Dry Ice Blasting vs traditional cleaning methods.

CLEANING METHOD	NO SECONDARY WASTE	NON-CONDUCTIVE	NON-TOXIC*	NON-ABRASIVE
Dry Ice Blasting	•	•	•	•
Sand Blasting		•	• *	
Soda Blasting		•	• *	
Water Blasting			• *	•
Hand Tools	•		•	
Solvents/Chemicals				•

* Upon contact, traditional blasting materials become contaminated when used to clean hazardous substances and objects. These blasting materials are then classified as toxic waste and require appropriate safe disposal.

Before

After

We now offer Cold Jet dry ice blasting equipment on a rental, lease, try-before-you-buy, and rent-to-own basis throughout the continental United States. Cold Jet is the global industry leader in dry ice blasting and we are pleased to be their exclusive rental partner in the U.S. market. Cold Jet's dry ice blasting equipment can be used for a wide range of cleaning and product finishing processes across a wide range of industry applications. Call us at 1-866-733-3272 for more information about Cold Jet dry ice cleaning technology.
