

TURNAROUND SERVICES

Preserving Life One Person at a Time

On Site. On Task. On Budget.

For the best in protection during turnarounds and shutdowns, turn to the experts. Airgas On-Site Safety Services is your one source for safety equipment, supplies, and services for fast, safe turnarounds. In fact, we're the only major provider that offers mobile training simulators for horizontal and high-angle rescue. Above all, we offer the expertise to guide your staff toward best practices that protect both lives and property so you can enjoy peace of mind — and a more cost-efficient turnaround.

Airgas.com

Fully Integrated On-Site Support maximizes efficiency, optimizes workflow, reduces loss.

Airgas On-Site Safety Services begins each project with a thorough overview of your project operations and project scope. From there we create a total solution to assist you in arriving at a safe and healthful conclusion. We provide a comprehensive tracking system to monitor the location of every piece of equipment rented or leased for the project. We also provide on-site safety and rescue operations personnel to train and supervise your staff — and skilled technicians to maintain and repair critical respirator and gas detector equipment.

Our experienced personnel and the wide variety of safety equipment and supplies we provide on-site help us meet virtually any turnaround needs required by our customers. Airgas On-Site Safety Services fully-integrated approach helps reduce costs and includes:

- On-site pre-turnaround planning
- Safety services — site-specific training, safety supervision, permit writing, confined-space monitoring, and safe work auditing
- On-site respirator fit-testing and health questionnaire completion
- Respiratory equipment rental and service
- Air-quality monitor rental and service
- Industrial hygiene and heat index monitoring equipment
- Breathing air — in cylinders, MircoBulk and tube trailers
- Fall protection rental and service
- Decontamination trailers
- Five psi blast-proof supply trailers
- Safety and rescue operations personnel available on site
- Certified vertical, horizontal and high-angle rescue teams
- Daily safety incidence reporting
- Compliance inspection services
- Support from more than 1,100 Airgas locations nationwide
- High Pressure Distribution System (HPDS) runs high-pressure lines throughout your plant to entry points
- AIR BOSS® provides high-volume, low-pressure air source via manifolds for up to 100 workers

Centralized to save you time and money.

Our *OUTLOOK*® Managed Services program is a centralized on-site supply management system that can deliver significant time and cost savings. With over 400 completed *OUTLOOK* projects under our belt, Airgas On-Site Safety Services has the experience to deliver a comprehensive, well-managed delivery system that meets your unique turnaround needs.

- Complete inventory of welding and safety equipment rentals and supplies
- Breathing air, welding and cutting gases provided in cylinders and on-site mobile trailers
- Managed tracking and inventory control covering both your equipment and ours

Safety...and much more.

With an expansive national footprint, an extensive product line, industrial construction specialist expertise, Red-D-Arc® welding rental equipment, complete industrial gas resources, and safety training programs, Airgas On-Site Safety Services provides the complete solution for all your on-site safety, MRO and gas supply needs.

Engineering the right solutions for all your safety and turnaround needs.
