Over 30 industries and hundreds of applications...

These environmentally responsible cleaning and product finishing systems eliminate the use of harmful solvents and other waste-generating cleaning processes.

Power Generation
- Turbines
- Compressors and Generators
- AC/DC Motors
- Circuit Breakers
- Switch Gears
- Transformers
- Rotors and Stators
- Insulators
- Field Frames
- Substation Isolators and Bushings

Contract Cleaning
- Fire and Smoke Restoration
- Mold Remediation
- Odor Elimination
- Water Damage
- Lead Paint Abatement
- Adhesive and Tar Removal
- Contaminant Removal
- Plant Shutdowns

Foundry and Forging
- Remove Resins and Release Agents
- Permanent Aluminum Molds
- Semi-solid Castings/Forging
- Core Boxes and Vents
- Refractory Coatings
- Shell Core Molds
- Die Cast Tooling
- Conveyors

Rubber and Plastic
- Blow Molds
- Compression Molds
- Extrusion Molds
- Injection Molds
- Thermoset Molds
- Urethane Molds and Overmolds
- Metal Bonded Molds
- Tilts or Presses
- Lift Presses

Food and Beverage Processing
- Microns and Dividers
- Pack-off Tables
- Labelers and Gluers
- Overs and Conveyors
- Mixers and Baggers
- Instru Weighers
- Bottling Lines

Medical
- Medical Stents and Implants
- Thermoplastic Injection Mold
- Titanium, Stainless, PEEK Products
- Surgical Tools and Instruments
- Thermostat Injection Molds
- Deflashing and Deburring
- Liquid Injection Silicone Mold
- Catheter Tips
- Mambas

Contractors use Cold Jet systems to clean stator windings at hydro-electric power generation facilities.
Red-D-Arc offers a variety of Cold Jet Dry Ice Blasting Systems to provide you with the appropriate solution for your needs and budget.

**Aero 40/Aero 40 HP**
- Hopper Capacity: 40 lb
- Feed Rate: 0-4 lb/min
- Blast Pressure: up to 140 PSI
- Weight: 260 lb
- Dimensions: 36” X 17” X 46”
- Uses dry ice pellets

**Aero 80 HP**
- Hopper Capacity: 80 lb
- Feed Rate: 0-7 lb/min
- Blast Pressure: up to 300 PSI
- Weight: 400 lb
- Dimensions: 43” X 20” X 46”
- Uses dry ice pellets

**Aero C100**
- Hopper Capacity: 100 lb
- Feed Rate: 0-10 lb/min
- Blast Pressure: up to 140 PSI
- Weight: 250 lb
- Dimensions: 31” X 16” X 46”
- Uses dry ice pellets

**P MicroClean**
- Dry Ice Capacity: 20 lb
- Feed Rate: 0-12 lb/min
- Blast Pressure: up to 140 PSI
- Power Supply: 110V or 230V 1Phase
- Weight: 130 lb
- Dimensions: 22” X 16” X 21”
- Uses dry ice block shavings

**Aero Series**
- Patented shaving technology...
- While pellets are most suitable when removing heavy, thick contaminants, shaved ice is ideal for cleaning delicate substrates, intricate geometries or tiny openings.

**i3 Series**
- The Aero Series features the SureFlow System, ensuring a reliable flow of dry ice pellets for a superior and efficient clean.
- The i3 Series features patented dry ice block shaving and feeder technology, providing a powerfully gentle and precise clean.

---

Rent, Lease, or Purchase
Regardless of the size and scope of your dry ice blasting project, we have options to accommodate your needs. From daily rentals to new machine sales, we have you covered.

With our nationwide sales team, and network of rental outlets, you can choose how you want to get your dry ice blast cleaning equipment. Whether you just want to rent a machine for a weekend shutdown and maintenance, or purchase outright and depreciate over time, we can accommodate your preference.

**Blasters Plus Program**
- Is an all-inclusive agreement for the rental of dry ice blast cleaning system, dry ice cleaning medium (either pellets or block ice), and a compressed air supply (if needed).
- Highlights include:
  - Agreements can be for short or long term rental (daily, weekly, monthly) or lease (36-month)
  - Complete dry ice system is configured to your specific requirements
  - Regular invoicing for the equipment and the first 1,000 pounds of dry ice
  - Additional ice can be ordered on an as-needed basis and billed separately

**Daily, Weekly or Monthly Rentals**
Rent your blasting equipment by the day, week, or month.

**Blast-Logistics Lease**
Equipment can be leased for a 36-month term.

**Try-Before-You-Buy**
Your equipment is delivered to you on a rental basis, but you can exercise an option to purchase within the first 30 days.

**Rent-to-Own**
Apply your rental payments towards purchase costs.

**Purchase New or Used**
Call us for details about new or used equipment purchases.

A Faster, Better, Green Cleaning Process

Environmentally responsible dry-ice-blast cleaning and product finishing systems eliminate the use of harmful solvents and other waste-generating cleaning processes. Dry-ice-blast cleaning utilizes a unique combination of forces to powerfully lift surface contaminants without causing damage or creating harmful secondary waste. Similar to sand, bead and soda blasting, dry-ice-blast cleaning prepares and cleans surfaces using a medium accelerated in a pressurized air stream. But that's where the similarity ends.

Instead of abrasive media to grind surfaces (and damage them), Cold Jet systems from Red-D-Arc use dry ice (solid CO2) accelerated at supersonic speeds that sublimate upon impact and lift contaminants from substrates.

From gently restoring smoke damaged books, to cleaning multi-million dollar production equipment in place, Red-D-Arc’s range of Cold Jet dry-ice-blast cleaning equipment systems, nozzles and accessories can tackle your toughest cleaning challenges head on.

Contractor recommends Cold Jet's process.

"By using Cold Jet's dry ice blast cleaning system, our customers will find a safe and easy cleaning solution that will help them significantly reduce operating costs and improve productivity."

Mike Uppenholt, Vice President
PET Husky

How does it work?

Instead of abrasive media to grind surfaces (and damage them), Cold Jet systems use dry ice (solid CO2) accelerated at supersonic speeds that sublimate upon impact and lift contaminants from substrates.

From gently restoring smoke damaged books, to cleaning multi-million dollar production equipment in place, Red-D-Arc’s range of Cold Jet dry-ice-blast cleaning equipment systems, nozzles and accessories can tackle your toughest cleaning challenges head on.
